Manufacturer:	Shenzhen TingRui Technology Co., Ltd.
Address:	A808, Jieshun Technology Center, No. 5, Guansheng Second Road, Luhu Community, Guanhu Street, Longhua District, Shenzhen, Guangdong Province, China.
Test specification:	
Standard:	Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020
	Consumer Goods (Products Containing Button/Coin Batteries) Information Standard 2020
Test procedure	N/A
Non-standard test method:	N/A
Test item description:	White noise alarm clock
Trade Mark:	N/A
Model/Type reference:	D60 ,RY-03 Cell : CR2032
Ratings:	DC 3V

General disclaimer:

This report is only for applicant use. Any copying this report to/for any other person or entity, and use our name or trademark, is permitted only with our prior written permission. This report sets forth our findings solely with respect to the test samples identified herein. The results set forth in this report are not indicative or representative of the quality or characteristics of the lot from which a test sample was taken or any similar or identical product unless specifically and expressly noted. Our report includes all of the tests requested by you and the results thereof based upon the information that you provided to us. Unless specific mention, the uncertainty of measurement has been explicitly taken into account to declare the compliance or non-compliance to the specification

List of Attachments:

The sample(s) tested complies with the requirements of Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020, Consumer Goods (Products Containing Button/Coin Batteries) Information Standard 2020

When determining the test conclusion, the Measurement Uncertainty of test has been considered.
 Appendix 1: Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020.
 Appendix 2: Consumer Goods (Products Containing Button/Coin Batteries) Information Standard 2020

Summary of testing:

Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020,
 Consumer Goods (Products Containing Button/Coin Batteries) Information Standard 2020

Tests performed (name of test and test clause):

The submitted samples were found to comply with requirements of standards:
 Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020,
 Consumer Goods (Products Containing Button/Coin Batteries) Information Standard 2020

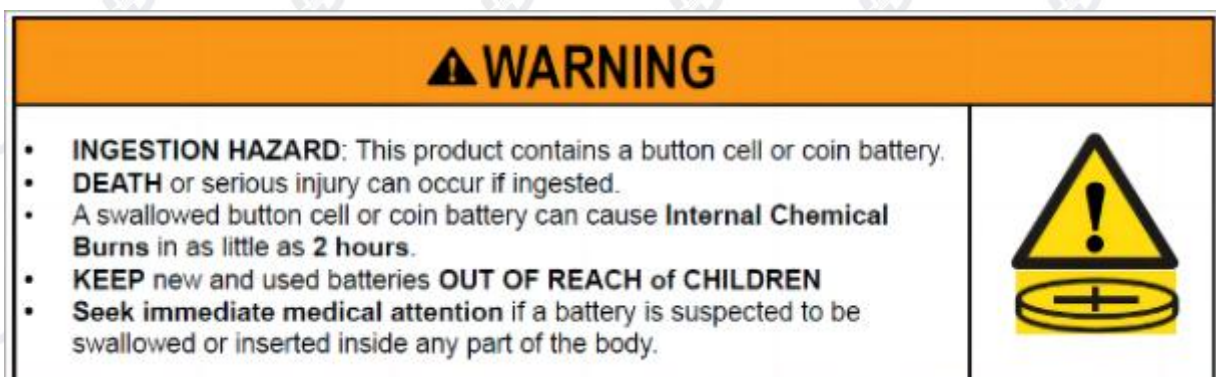

Testing location:

Dongguan HDTL Technology Co., Ltd.
 Room 101, Building 1, No. 5 of Jinzhong Road,
 Dongcheng Street, Dongguan City, Guangdong Province, China.

Summary of compliance with National Differences (List of countries addressed):

The product fulfils the requirements of, Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020, Consumer Goods (Products Containing Button/Coin Batteries) Information Standard 2020

Copy of marking plate:

Test item particulars : White noise alarm clock	
Classification of installation and use : To be defined in final product	
Supply Connection : CR2032 Button cell	
Possible test case verdicts:	
- test case does not apply to the test object..... : N/A	
- test object does meet the requirement..... : P (Pass)	
- test object does not meet the requirement..... : F (Fail)	
Testing:	
- Date of receipt of test item..... : April. 13, 2026	
- Date (s) of performance of tests..... : April. 13, 2026 to April. 17, 2026	
General remarks:	
"(See Enclosure #)" refers to additional information appended to the report. "(See appended table)" refers to a table appended to the report.	
Throughout this report a <input type="checkbox"/> comma / <input checked="" type="checkbox"/> point is used as the decimal separator.	
Manufacturer's Declaration per sub-clause 4.2.5 of IEC60730-2:	
The application for obtaining a CB Test Certificate includes more than one factory location and a declaration from the Manufacturer stating that the sample(s) submitted for evaluation is (are) representative of the products from each factory has been provided..... :	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> Not applicable
When differences exist; they shall be identified in the General product information section.	
Name and address of factory (ies)..... :	Shenzhen TingRui Technology Co., Ltd. A808, Jieshun Technology Center, No. 5, Guansheng Second Road, Luhua Community, Guanhu Street, Longhua District, Shenzhen, Guangdong Province ,China.
General product information and other remarks:	
The CR2032 Button cell is used in the White noise alarm clock.	

Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020			
Clause	Requirement + Test	Result - Remark	Verdict
Part 1	Preliminary		--
1	Name		--
	This instrument is the Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020.		--
2	Commencement		--
	(1) Each provision of this instrument specified in column 1 of the table commences, or is taken to have commenced, in accordance with column 2 of the table. Any other state ment in column 2 has effect according to its terms		--
	(2) Any information in column 3 of the table is not part of this instrument. Information may be inserted in this column, or information in it may be edited, in any published version of this instrument.		--
3	Authority		--
	This instrument is made under subsection 104(1) of the Australian Consumer Law.		--
4	Definitions		--
	In this instrument: applicable industry standard means each of the following:		--
	(a) the Australian (Audio/Video) Standard; (b) the Australian (Electric Toys) Standard; (c) the Australian (Safety of Toys) Standard; (d) the Electronic Apparatus Standard; (e) the International (Audio/Video) Standard; (f) the International (Electric Toys) Standard; (g) the International (Safety of Toys)Standard; (h) the Lithium Technologies Standard; (i) the Luminaires Standard.		--
	Application day means the day after the period of 18 months beginning on the day this instrument commences.		--
	Australian (Audio/Video) Standard means the Australian/New Zealand Standard AS/NZS 62368. 1:2018 Audio/video, information and communication technology equipment- Part 1: Safety requirements, published jointly by, or on behalf of, Standards Australia and Standards New Zealand, as in force or existing at the time when this instrument commences.		--

Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020			
Clause	Requirement + Test	Result - Remark	Verdict
	Australian (Electric Toys) Standard means the Australian/New Zealand Standard AS/NZS 62115:2018 Electric toys—Safety, published jointly by, or on behalf of, Standards Australia and Standards New Zealand, as in force or existing at the time when this instrument commences.		--
	Australian (Safety of Toys) Standard means the Australian/New Zealand Standard AS/NZS 8124. 1:2019 Safety of Toys Part 1: Safety aspects related to mechanical and physical properties, published jointly by, or on behalf of, Standards Australia and Standards New Zealand, as in force or existing at the time when this instrument commences.		--
	button/coin battery means a small, single cell battery with a diameter greater than the battery's height.		--
	Electronic Apparatus Standard means the Australian/New Zealand Standard AS/NZS 60065:2018 Audio, video and similar electronic apparatus- Safety requirements, published jointly by, or on behalf of, Standards Australia and Standards New Zealand, as in force or existing at the time when this instrument commences.		--
	hearing aid means medical electrical equipment which picks up sound and delivers processed sound to the ear canal.		--
	International (Audio/Video) Standard means the International Standard IEC 62368- 1:2018 Audio/video, information and communication technology equipment- Part 1: Safety requirements, published jointly by, or on behalf of, Standards Australia and Standards New Zealand, as in force or existing at the time when this instrument commences.		--
	International (Electric Toys) Standard means the International Standard IEC 62115:2017 Electric toys—Safety, published by the International Electrotechnical Commission, as in force or existing at the time when this instrument commences.		--
	International (Safety of Toys) Standard means the International Standard ISO 8124. 1:2019 Safety of Toys— Part 1: Safety aspects related to mechanical and physical properties, published by the International Organization for Standardization, as in force or existing at the		--

	time when this instrument commences.		
	Lithium Technologies Standard means UL 4200A UL Standard for Safety for Products Incorporating Button or Coin Cell Batteries of Lithium Technologies, as published by UL Standards, as in force or existing at the time when this instrument commences.		--
	Luminaires Standard means the Australian/New Zealand Standard AS/NZS 60598. 1:2017 Luminaires Part 1: General requirements and tests, published jointly by, or on behalf of, Standards Australia and Standards New Zealand, as in force or existing at the time when this instrument commences.		--
	Applicable industry standards taken to apply to consumer goods with button/coin batteries		--
	For the purposes of this instrument, an applicable industry standard is taken to apply to button/coin batteries, even if the class of battery the standard otherwise applies to is more limited.		--
6	Application		P
	This instrument applies to consumer goods containing a button/coin battery.		P
	For the purposes of subsection (1), consumer goods contain a button/coin battery if: the battery is installed, or is to be installed, in the consumer goods to power the consumer goods; or the consumer goods are designed to store such batteries.		P
	However, this instrument does not apply to the following:		N/A
	(a) consumer goods that were first supplied to a consumer before the application day; (b) consumer goods supplied in a one -off transaction by a supplier who had acquired the goods as a consumer; (c) hearing aids; (d) equipment to which all of the following apply: (i) the equipment is intended to be used in trades, professions or industries; (ii) the equipment is not intended for sale to the general public; (iii) the equipment is not intended to be used where children are present; (e) consumer goods that contain button/coin		N/A

Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020			
Clause	Requirement + Test	Result - Remark	Verdict
	batteries that are soldered in place if: (i) the consumer goods are electrical and electronic equipment within the field of audio, video, information and communication technology; or (ii) the consumer goods are business and office machines with a rated voltage not exceeding 600 volts.		
Part 2	Requirements		P
Division 1	Introduction		P
7	Requirements to be complied with on and after application day		P
	On and after the application day, consumer goods containing a button/coin battery must comply with the requirements set out in this Part that apply to the consumer goods.		P
Division 2	Details of requirements		P
8	Button/coin batteries must not release during reasonably foreseeable use or misuse conditions		P
	If consumer goods contain a button/coin battery (whether or not the battery is intended to be replaceable), the battery in the consumer goods must not release during reasonably foreseeable use or misuse conditions.		P
	The consumer goods comply with the requirements in subsection (1) if, and only if, the consumer goods comply with the requirements in: (a) subsection 12(1) (product- specific standards); or section 16 (non- product- specific standards)		P
9	Compartment holding button/coin batteries must be resistant to being opened by young children		P
	If consumer goods contain a button/coin battery that is intended to be replaceable by a consumer, the compartment in which the battery is held must be designed to ensure the compartment is resistant to being opened by young children.		P
	The consumer goods comply with the requirements in subsection (1) if, and only if, the consumer goods comply with the requirements in: (a) subsection 13(1) (Audio/Video and Electronic Apparatus Standards); or (b) subsection 14(1) (Luminaires Standard); or		P

Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020			
Clause	Requirement + Test	Result - Remark	Verdict
	(c) subsection 15(1) (Safety of Toys Standards); or (d) section 17 (non- product-specific standards).		
10	Fasteners for doors or covers to compartments holding button/coin batteries must be captive etc.		P
	This section applies to consumer goods containing a button/coin battery if: the battery is held in a compartment in the consumer goods; and the door or cover providing access to the compartment is secured by screws or similar fasteners; and those consumer goods comply with the requirements in subsection 8(1) by complying with the requirements in section 16 (non- product- specific standards) rather than complying with the requirements in subsection 12(1) (product- specific standards).		P
	The consumer goods must be designed to ensure the screws or similar fasteners used to secure the door or cover providing access to the compartment are captive and remain with the door or cover.	Fasteners used to secure the door	P
	The consumer goods comply with the requirements in subsection (2) if, and only if, before the supply of the consumer goods to a consumer, representative samples of the consumer goods are tested in accordance with: (a) clause 13.4.6 of the Australian (Electric Toys) Standard; or (b) clause 13.4.6 of the International (Electric Toys) Standard; or (c) clause 4.101.2 of the Luminaires Standard.		N/A
11	Secureness of consumer goods with non- replaceable button/coin battery accessible by consumers must be tested	replaceable	N/A
1)	This section applies to consumer goods containing a button/coin battery if: the battery contained in the consumer goods is not intended to be replaceable by a consumer; and the battery is accessible to the consumer.		N/A
2)	Before the supply of the consumer goods to a consumer, representative samples of the consumer goods must meet the test set out in section 6.4 of the Lithium Technologies Standard.		N/A

Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020			
Clause	Requirement + Test	Result - Remark	Verdict
Division 3	Product- specific standards		P
12	Satisfying section 8 with product- specific standards		P
	Consumer goods containing a button/coin battery comply with the requirements in this subsection if:		P
	before the supply of the consumer goods to a consumer, representative samples of the consumer goods are tested in accordance with one of the following:		P
	Clauses 4.8.4.2 to 4.8.4.6 of the Australian (Audio/Video) Standard;		P
	Clauses 4.8.4.2 to 4.8.4.6 of the International (Audio/Video) Standard;		N/A
	Stress relief test		N/A
	If the battery compartment utilizes moulded or formed thermoplastic materials, the sample consisting of the complete equipment, or of the complete enclosure together with any supporting framework, is tested according to the stress relief test of Clause T 8		N/A
	Crush test		N/A
	Handheld remote control devices are to be supported by a fixed rigid supporting surface in a position likely to produce the most adverse results as long as the position can be self - supported A crushing force of 330 N + 5 N is applied to the exposed top and back surfaces of remote control devices placed in a stable condition by a flat surface measuring approximately 100 mm by 250 mm for a period of 10 s		N/A
	Clause 5.24 of the Australian (Safety of Toys) Standard;		N/A
	Clause 5.24 of the International (Safety of Toys) Standard;		N/A
	Clauses 12.7.3.2 to 12.7.3.6 of the Electronic Apparatus Standard;		N/A
	Clause 4.101. 1 of the Luminaires Standard; and		N/A
	the button/coin batteries contained in the samples are not released during the testing.		P
	If consumer goods cannot comply with subsection (1) because a test in a specified clause of a standard in the subsection is not appropriate for that kind of consumer goods,		P

Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020			
Clause	Requirement + Test	Result - Remark	Verdict
	the consumer goods are taken to comply with that subsection if: an alternative test that is more appropriate is applied; and before the supply of the consumer goods to a consumer, representative samples of the consumer goods are tested in accordance with that alternative test; and applying that alternative test (along with the other tests of the standard that apply and are appropriate) ensures that the battery is not released during reasonably foreseeable use or misuse conditions.		
13	Satisfying section 9 with Audio/Video and Electronic Apparatus Standards		P
	Consumer goods containing a button/coin battery comply with the requirements in this subsection if the consumer goods comply with the requirements in subsections (2) and (3).		P
	The consumer goods comply with the requirements in this subsection if the consumer goods comply with any of the following before the supply of the consumer goods to a consumer: Clause 4.8.3 of the International (Audio/Video) Standard;		P
	Clause 4.8.3: Equipment having a battery compartment door / cover shall be designed to reduce the possibility of children removing the battery by one of the following methods:		P
	a tool, such as a screwdriver or coin, is required to open the battery compartment, in which case a minimum torque of 0.5Nm and a minimum angle of 90 degrees of rotation shall be required to open the compartment or	Used a special tool to open the cover, >1Nm. >90 degrees	P
	The battery compartment door/ cover requires the application of a minimum of two independent and simultaneous movements to open by hand.		N/A
	The consumer goods comply with the requirements in this subsection if the consumer goods comply with an item of the following table before the supply of the consumer goods to a consumer:		P
	Clause 4.8.5 of the International (Audio/Video) Standard; Compliance: 30N force test with test probe 20N force test with test hook	Cannot open the cover.	P
	Subsection (5) applies if consumer goods cannot comply with subsection (2) or an item of		N/A

Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020			
Clause	Requirement + Test	Result - Remark	Verdict
	the table in subsection (3) because a test in a specified clause of a standard in the subsection or the item is not appropriate for that kind of consumer goods.		
	The consumer goods are taken to comply with the subsection or item if: (a) an alternative test that is more appropriate is applied; and (b) before the supply of the consumer goods to a consumer, representative samples of the consumer goods are tested in accordance with that alternative test; and (c) applying that alternative test (along with the other tests of the standard that apply and are appropriate) ensures the compartment in which the battery is held is resistant to being opened by young children.		N/A
14	Satisfying section 9 with Luminaires Standard		N/A
	Consumer goods containing a button/coin battery comply with the requirements in this subsection if:		N/A
	before the supply of the consumer goods to a consumer, representative samples of the consumer goods are tested in accordance with clause 4.101. 1 of the Luminaires Standard; and		N/A
	those samples, after that testing, are compliant with: (i) clause 4.101. 1 of the Luminaires Standard (AS/NZS 60598- 1:2017); and (ii) clause 4.101.2 of the Luminaires Standard (if applicable). Button cells and batteries designated R1 shall not be removable without the aid of a tool unless the cover of their compartment can only be opened after at least two independent movement is have been applied simultaneously.		N/A
	If consumer goods cannot comply with subsection (1) because a test in a specified clause of the Luminaires Standard is not appropriate for that kind of consumer goods, the consumer goods are taken to comply with that subsection if: an alternative test that is more appropriate is applied; and before the supply of the consumer goods to a consumer, representative samples of the consumer goods are tested in accordance with that alternative test; and		N/A

Consumer Goods (Products Containing Button/Coin Batteries) Safety Standard 2020			
Clause	Requirement + Test	Result - Remark	Verdict
	applying that alternative test (along with the other tests of the Luminaires Standard which apply and are appropriate) ensures the compartment in which the battery is held is resistant to being opened by young children.		
15	Satisfying section 9 with Safety of Toys Standards		N/A
	Consumer goods containing a button/coin battery comply with the requirements in this subsection if the consumer goods comply with an item of the following table before the supply of the consumer goods to a consumer.		N/A
	Clause 5.24 of the Australian (Safety of Toys) Standard		N/A
	Drop test Height: 139cm, 10times		N/A
	Torque test 0.45Nm		N/A
	Tension test 70N, 10s,		N/A
	Compression test 136N, 10s		N/A
	Button cells and batteries designated R1 shall not be accessible without the aid of a tool unless the cover of their compartment can only be opened		N/A
	The batteries of toys intended for children under 3 years old shall not be removable without the aid of a tool unless the security of the battery compartment cover is adequate.		N/A
	If consumer goods cannot comply with an item of the table in subsection (1) because a test in a specified clause of a standard in the item is not appropriate for that kind of consumer goods, the consumer goods are taken to comply with the item if:		N/A
	an alternative test that is more appropriate is applied; and		N/A
	before the supply of the consumer goods to a consumer, representative samples of the consumer goods are tested in accordance with that alternative test; and		N/A
	applying that alternative test (along with the other tests of the standard that apply and are appropriate) ensures the compartment in which the battery is held is resistant to being opened by young children.		N/A

	substance of all the matters covered by subsection (7).		
	For the purposes of subsections (4) and (5), a warning may be attached by: affixing a sticker with the warning to the goods; or attaching a tag with the warning to the goods.		P
	This subsection covers the following matters: (a) an alert word (such as DANGER, WARNING or CAUTION) with the letters of the alert word in upper case; (b) an internationally recognised safety alert symbol; (c) a statement to the effect that the battery is hazardous and is to be kept away from children (whether the battery is new or used); (d) if the battery is a lithium button/coin battery—a statement to the effect that the battery can cause severe or fatal injuries in 2 hours or less if it is swallowed or placed inside any part of the body; (e) if the battery is a non- lithium button/coin battery—a statement to the effect that the battery can cause serious injuries if it is swallowed or placed inside any part of the body; (f) advice to the effect that medical attention should be sought immediately if it is suspected the battery has been swallowed or placed inside any part of the body.	See page 2	P
9	Warning requirements for consumer goods with lower risk profile		P
	This section applies in relation to consumer goods with a button/coin battery if:		P
	the consumer goods are accompanied by instructions; and		P
	one or more of the following apply: the consumer goods are hearing aids; the battery is fully enclosed in the consumer goods; the battery is not intended to be removed or replaced by a consumer; a specialist is required to install or remove the battery.		N/A
	The instructions must have a warning that is clearly visible, prominent and legible.		P
	The warning must include the substance of all of the following:		P

Consumer Goods (Products Containing Button/Coin Batteries) Information Standard 2020			
Clause	Requirement + Test	Result - Remark	Verdict
	an alert word (such as DANGER, WARNING or CAUTION) with the letters of the alert word in upper case; an internationally recognised safety alert symbol;		
	a statement to the effect that the battery is hazardous and is to be kept away from children (whether the battery is new or used);		P
	if the battery is a lithium button/coin battery—a statement to the effect that the battery can cause severe or fatal injuries in 2 hours or less if it is swallowed or placed inside any part of the body;		P
	if the battery is a non- lithium button/coin battery —a statement to the effect that the battery can cause serious injuries if it is swallowed or placed inside any part of the body;		N/A
	advice to the effect that medical attention should be sought immediately if it is suspected the battery has been swallowed or placed inside any part of the body.		P
10	Warnings must comply with size, legibility and durability standards	See page 2	P
	A warning in relation to consumer goods containing a button/coin battery that is required under this Part must comply with the following:		P
	clause D.5 (size and legibility of product safety labels) of Annex D of the Design Principles;		P
	ISO 3864- 1 offers some guidance on the size of safety signs, on legibility and on observation distances. The colour of the product safety label should make it conspicuous. This should be achieved by either ensuring that the product safety label is in a contrasting colour to that of the product surface to which it is attached or by giving the product safety label a border of contrasting colour. The size and legibility of a product safety label should be such as to ensure that the product safety label is sufficiently legible at the safe viewing distance from the potential hazard.		P
	clause D.7 (durability of product safety labels) of that Annex.		P
	Product safety labels should have a reasonable expected life with good colour stability, safety sign and safety information symbol legibility, and text legibility when viewed at a safe viewing distance.Choice of materials and attachment method should take into account the foreseeable environment of use and the expected life of the		P

	product. For information on methods for testing of durability of materials and assessment criteria, see ISO 17398.		
Part 3	Recommendations		--
11	Purpose of this Part		P
	The purpose of this Part is to set out recommendations in relation to consumer goods containing a button/coin battery.		P
	To avoid doubt, a person does not contravene this instrument if: the person supplies, or offers for supply, consumer goods with a button/coin battery that do not comply with this Part; or the person manufactures, possesses or has control of consumer goods with a button/coin battery that do not comply with this Part.		P
12	Consumer goods containing button/coin batteries should have warning on goods		P
	<p>Consumer goods containing a button/coin battery should be marked with a warning to which all of the following apply:</p> <p>(a) the warning is clearly visible, durable and remains legible for the expected life of the goods; (b) the warning is located on or close to where the battery is accessible;</p> <p>(c) the warning includes an internationally recognised safety alert symbol;</p> <p>(d) if space on the consumer goods permits—the warning includes:</p> <p>(i) an alert word (such as DANGER, WARNING or CAUTION) with the letters of the alert word in upper case; and</p> <p>(ii) a statement to the effect that the battery is hazardous and is to be kept away from children (whether the battery is new or used);</p> <p>(e) if space on the consumer goods permits and the battery is a lithium button/coin battery—a statement to the effect that the battery can cause severe or fatal injuries in 2 hours or less if it is swallowed or placed inside any part of the body;</p> <p>(f) if space on the consumer goods permits and the battery is a non- lithium button/coin battery—a</p> <p>a statement to the effect that the battery can cause serious injuries if it is swallowed or placed inside any part of the body.</p>	See page 2	P

Clause	Requirement + Test	Result - Remark	Verdict
13	Packaging for consumer goods containing button/coin batteries should have warning about goods		P
	If consumer goods containing a button/coin battery are packaged, the packaging of the consumer goods should be marked with a warning about the battery that is clearly visible, prominent and legible.		P
	The warning should include the following matters:		P
	an alert word (such as DANGER, WARNING or CAUTION) with the letters of the alert word in upper case;		P
	if the battery is a lithium button/coin battery—a statement to the effect that the battery can cause severe or fatal injuries in 2 hours or less if it is swallowed or placed inside any part of the body;		P
	if the battery is a non- lithium button/coin battery —a statement to the effect that the battery can cause serious injuries if it is swallowed or placed inside any part of the body;		N/A
	advice to the effect that medical attention should be sought immediately if it is suspected the battery has been swallowed or placed inside any part of the body.		P
	If there is sufficient space on the front of the packaging, the warning should be marked with all the matters specified in subsection (2) on the front.		P
	If there is insufficient space on the front of the packaging,the warning should be marked as follows:		N/A
	the matters specified in paragraphs (2)(a) to (b) must be marked on the front;		P
	the other matters specified in subsection (2) must be marked elsewhere on the packaging.		P
14	Consumer goods containing button/coin batteries supplied with electronic platform should include warnings		P
	If a person conducts a business with an electronic platform to supply consumer goods containing button/coin batteries, the person should cause a warning about the batteries to be included in the goods' description provided by the platform that is clearly visible, prominent and legible.		P
	The warning should include the following matters:		P
